

During this pandemic, the students of Touching Miami with Love aren't able to be at their "home away from home" that they enjoy. You can help brighten their day by sending them some TML love via video!

Would you consider making a video of 30-seconds or less to be shared online for our students to view?

Here's some thoughts to get you started:

- Do you have a memory of a fun time you shared with the children or youth at TML?
- Do you have an encouraging, positive word to share?
- Do you have a meaningful Bible verse, poem, or saying you'd like to share?
- Do you have a special spot in your yard, neighborhood, town/city that you'd like to show the TML children and youth?
- Do you have TML swag (shirts, sweatshirts, mugs) or an item from your time at TML? Wear/bring them on screen and show the kids your support.

Video Tips:

- Please use landscape mode if shooting the video on your phone.
- If you have a phone tripod or a stand, set your phone up to record to avoid movement or ask a friend to hold a phone using two hands to keep as steady as possible.
- Stay far enough away from the screen so we can see your whole head and shoulders, but not so far that we can't hear you.
- Note that by sending in your video, you are consenting to it being posted either on our website, TML social media accounts, or both.

Guidelines:

- Please show sensitivity to your TML audience in the background of your video. Try to choose a neutral background or outdoors.
- Feel free to give a shout out to students by name or the name of their group. The children will love this!
- Don't make promises of future visits. We hope to see our volunteers soon, but so much of this new normal is uncertain.

Please understand TML reserves the right to *not* publish your video online if either the message, background, or any aspect of your video does not support positivity, our guidelines, or the mission of Touching Miami with Love.
